

Wildlife Safari

Ward Cameron Enterprises

EXPERIENCE THE SECRET WORLD OF WILDLIFE

Join an expert naturalist in an exploration of the secret world of wildlife. In addition to searching for wildlife, our presentation shows you trees that have been climbed by bears (leaving permanent scars), active nests of eagles and ospreys, and fields frequented by elk and wolves. Our portable museum edukit combines field observation with fossils, artifacts, guide books, and telescopes to provide a truly unique learning experience.

The magic of this workshop is its compelling mix of possibility mixed with tangible experiences. Expert guides take you behind the scenes, highlighting current trends in research. Through the work of researchers and biologists, we are finding better ways to coexist with the local wildlife?

This is no ordinary tour! While we cannot guarantee that you'll see wildlife, you WILL see more than just fabulous views. This tour can be customized to meet your needs. Why not combine a half-day wildlife safari with a guided nature hike? Ward Cameron Enterprises is dedicated to bringing the wildlife to you. Call today to book your wildlife safari!

WARD CAMERON ENTERPRISES

Company founder, Ward Cameron is a naturalist, historian, author and storyteller. He has spent almost two decades showing visitors the riches of western Canada. As an author, his books include *"Canmore and Kananaskis - Best Hikes Best Activities"*, *"Mountain Bike! The Canadian Rockies"* and *"Mountain Bike! Southwestern British Columbia"*. In researching these books, Ward personally explored more than 300 trails in western Canada.

Our web site, MountainNature.com, is the largest online guide to the plants, animals, birds and landforms of the Rockies. It is recommended by Canadian Geographic, Kananaskis Country, the Federation of Alberta Naturalists, and the Global Outdoor and Environmental Education Council.

Our team of experts create unique experiences that are not available elsewhere. Call now to book your event!

IN THE NEWS

"Before venturing into the Rockies, visit naturalist Ward Cameron's website to get ecological and safety information that will help you to enjoy your trip to the fullest." Canadian Geographic Magazine

"Naturalist, photographer and all-around mountain guru Ward Cameron is behind the site, MountainNature.com which offers a mass of well-organized information about the Rockies." Calgary Herald Newspaper

"The sheer volume of Cameron's carefully compiled facts on the people, wildlife and natural environment of Canmore, right down to where to go for a dip on a hot summer afternoon, is testimony to town's value as a vacation destination in its own right." Banff Crag & Canyon Newspaper
